SOFA

Excellent functionality combined with high style.

The thin seat of molded urethane foam creates a cheerful impression. Offering a variety of possible combinations, this sofa can be made to easily harmonize with many different interiors.

Elephant Sofa

design by イチミリデザイン×SOGOKAGU

This minimalist "R" profile chair back design is detailed and permits movement around the arms and shoulders. Designed around the concept of human engineering, this chair eliminates unnecessary pressure points and readily accommodates various upper-body movements.

無駄を省いたR形状の背もたれのデザインは、人間工学に基づき無駄な力点を省くことで、肩や腕まわりの動きを妨げないディテールになり、上半身の多様な動きにスムーズに対応します。

Single-mold Form and Seat

The design concept of the Elephant Chair is inspired by the integrated molded seat design. It features a curved form that accommodates many body types and seating positions. Design registration pending

デザインと座りの一体成形

エレファントチェアのデザイン思想を継承。さまざまな体型や座り方をカバーする曲面形状を実現しました。

Ibis

design by SOGOKAGU

Assembled with an abundance of high-quality urethane, this design features rich cushioning in the back, arms and seat surface. The form is rich in both style and personality. Two leg designs are available, cool aluminum and lifestyle-friendly wood.

Design registration pending for leg design.

高品質なウレタンをたっぷり使用しました。座面、背、肘を囲む大胆なクッションが特徴です。風格とスタイリッシュを兼ね備えた佇まい。木製脚はリビング風、アルミ脚はクールなデザインに仕上がりました。

Elephant Series

design by イチミデザイン×SOGOKAGU

The Elephant Series is a beautiful line of flexible products designed with a focus on ergonomics. With the addition of the Elephant Sofa, this series has evolved into a line that is very easy to coordinate.

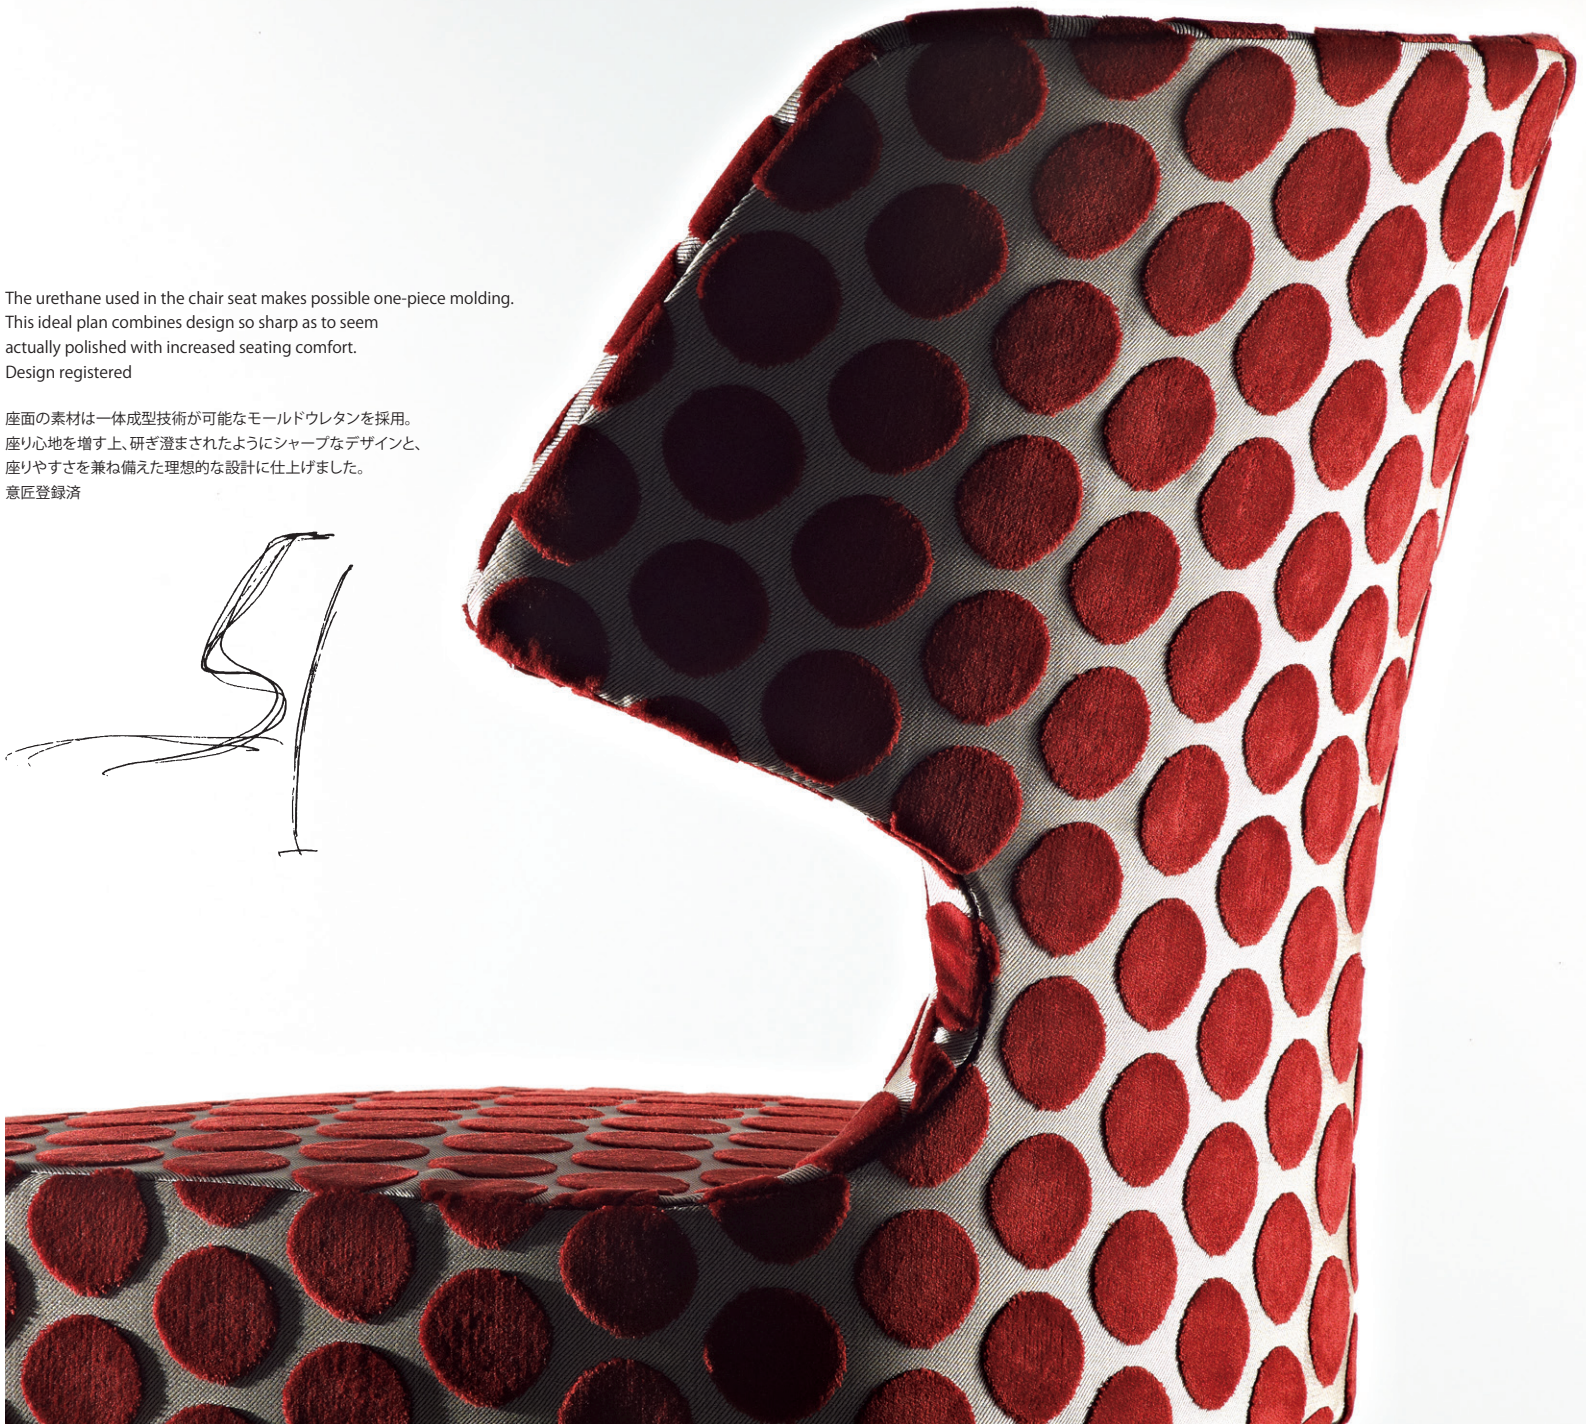

人間工学に基づいたしなやかで美しいラインをもつエレファント。新たにエレファントソファを加えコーディネート性の高いシリーズに進化しました。

Elephant

design by イチミリデザイン×SOGOKAGU

The urethane used in the chair seat makes possible one-piece molding.
This ideal plan combines design so sharp as to seem
actually polished with increased seating comfort.

Rushe

design by SOGOKAGU

Ema Series

design by SOGOKAGU

This series excels at offering superior body-hugging comfort, as the upper portion of the tall molded urethane back features a beautifully curved surface that adapts to the body's shape. The wide variety of available leg combinations is ideally suited to office coordination.

曲面が美しいモールドウレタンのハイバック上部が身体をホールド、フィット感に優れたシリーズです。脚の組み合わせなどが多彩なので、オフィスのコーディネート等に最適です。

Alex Series

design by SOGOKAGU

This shell seat is gently enveloped with fabric along the lines of the 3D curved surface. Its lightness is one of its most welcome features. A wide range of leg types is also available. This versatile chair is very easy to coordinate, as it presents a variety of styles depending on the choice of materials.

3次曲面のラインに、ファブリックで優しくくるんだシートシェル。軽快さも特徴のひとつ。脚の種類も豊富で選び方によりさまざまに表情を変える、コーディネート性の高いチェアです。

Royce Series

design by SOGOKAGU

The back, legs, fabric and seating surface are all available in numerous materials that make many combinations possible. This series was made to be enjoyed, and the abundant choices of available materials ensure it is easily tailored to any type of interior.

STACKING CHAIR

Invitation to a casual modern style.

Though consisting of straight lines, this modern design gives a sense of gentle warmth.
The molded urethane seat integrated with armrests is comfortable to settle down in.

Tack

コントラクト家具ならではの、スタッキング機能の精度に徹底的にこだわった木製チェア。

Wooden chairs carefully designed for effective stacking.

ARM CHAIR

Providing relaxation and accents for various interiors.

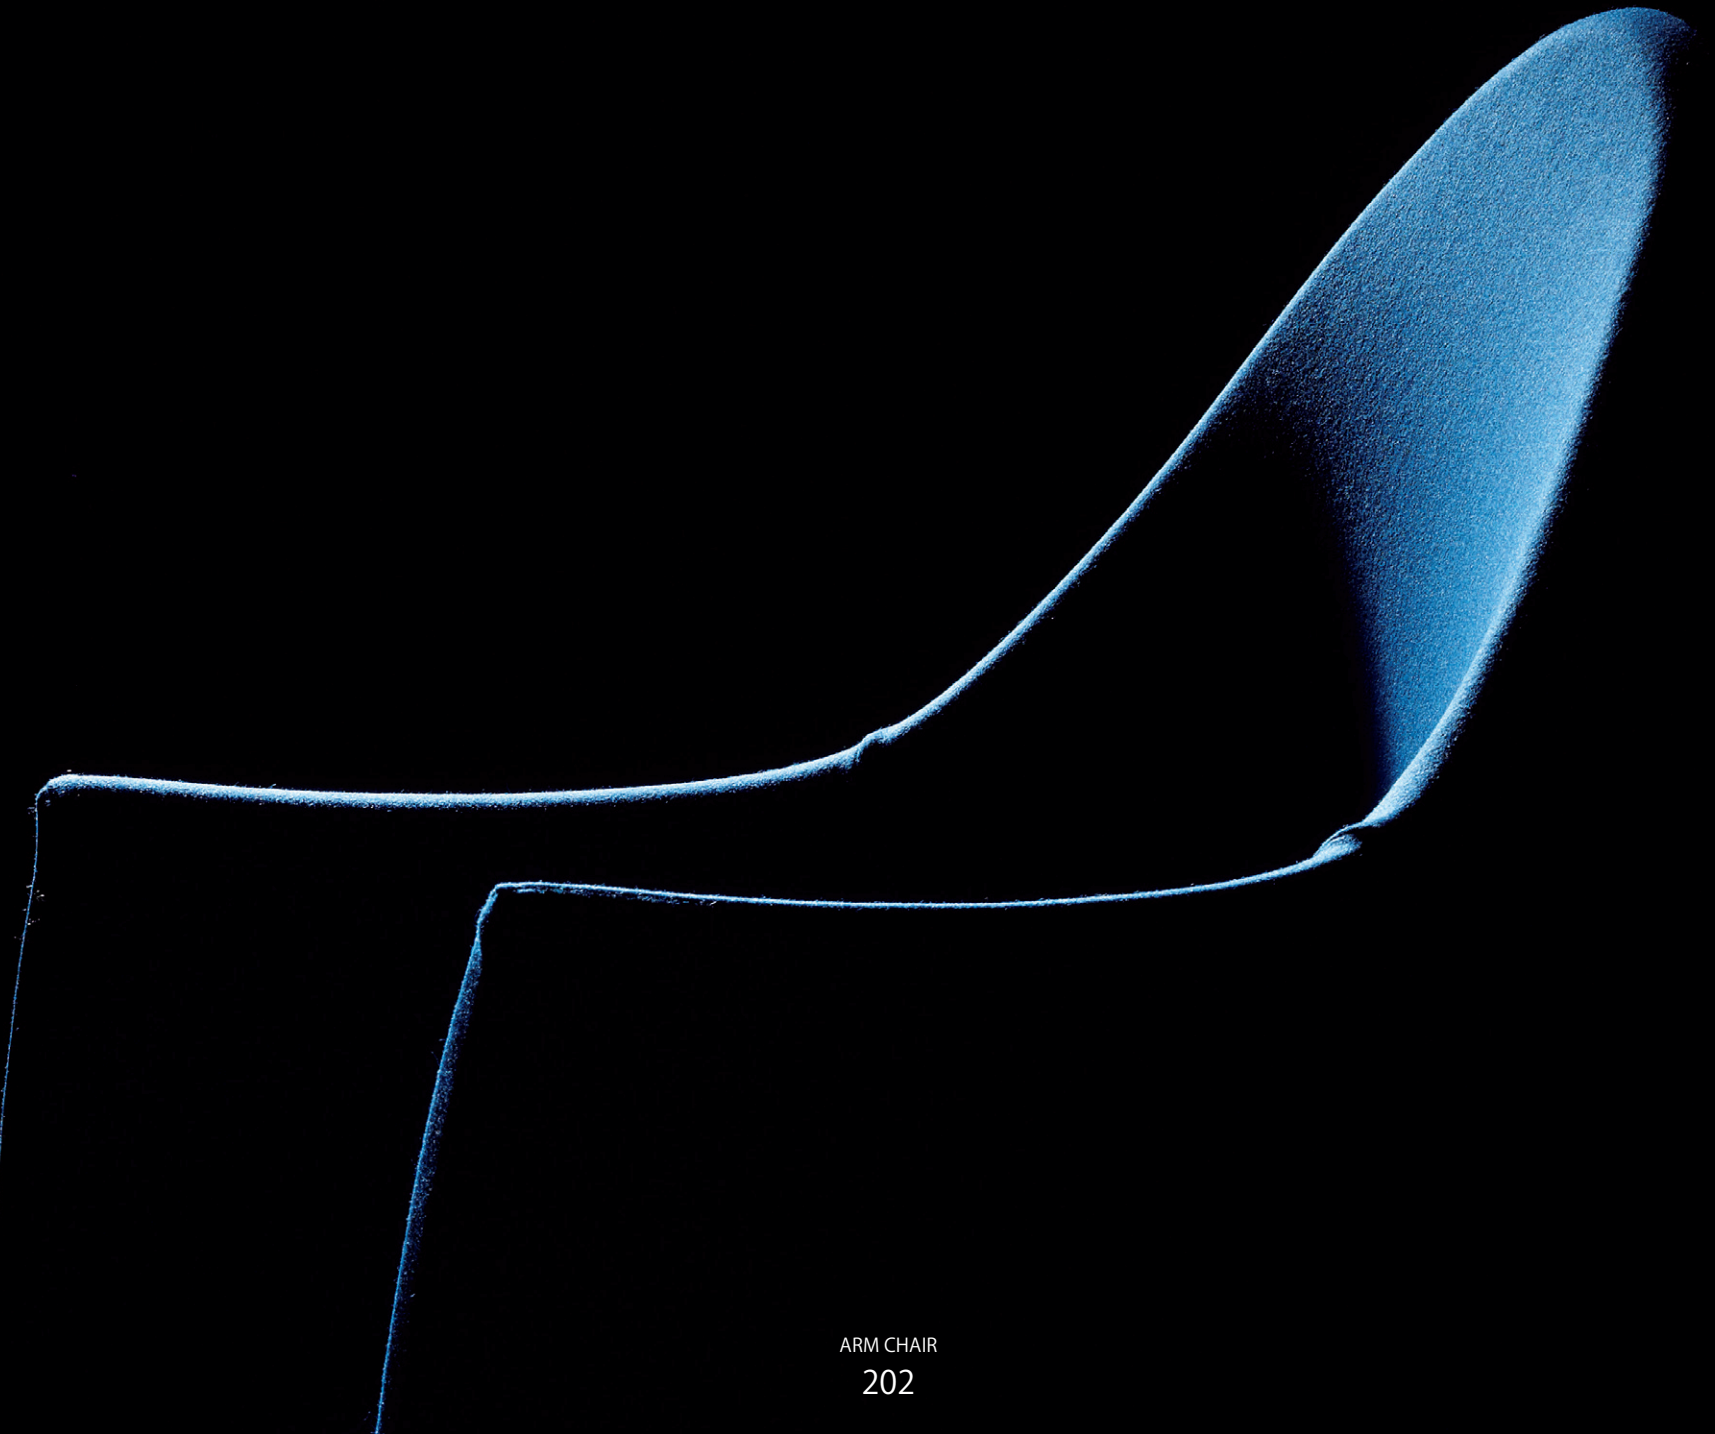

This armchair contributes a sense of openness and relaxation.

Sogokagu has created a simple, fresh design that never loses its appeal and offers pleasant and comfortable seating focused on function.

Sleeve

デザインと座りの一体成形

Design and Seating Comfort Combined

STAND

A form looking so soft you can't resist touching it.

A simple structure in a rounded cute design.

The chair softens the atmosphere of the space where it is placed.

STAND
234

STOOL&OTHERS

A unique stool with beautiful curves and angles.

The twisted form takes on various shapes when viewed from different angles.
When stacked up, the twist goes on and on. A fascinating objet d'art stool.

KIDS

Use these multifunctional tools to create a play area.

Though consisting of straight lines, this modern design gives a sense of gentle warmth. Side benches, mats, slopes, and even a shoe box can be used to separate off a play space, and different-shaped cushions covered in vinyl leather are also available.

The three photographs on the left show examples of facilities using space dividers and the March range.

The basic pattern surrounds the play space with boards and side benches, and places the shoe box at the entrance.

A centrally positioned slope offers a layout that permits running and jumping.

The third pattern scatters different-shaped cushions from the March range at random within the space, enabling them to be used for play.

TABLE

We offer tables to match our chairs.

Our ordering system allows you to select the material and color of your preference, as well as the size. Simply make the choice best suited to your particular interior.
